TARGET AUDIENCE: Teachers, secondary school students, enthusiasts of Regional Studies, and Latgalistics

Since 1993, Rezekne Academy of Technologies has offered study programs that incorporate modules and internships in Latgalian language and culture studies. Since then, numerous digital resources have been developed to implement the previously collected materials into tools for language studies.

The Erasmus+ project "Ownership and Leadership: Pathway for (Endangered) Languages' Use in School (OWL+)" (2022–2025) is organized in cooperation with the Friske Academy (Frisian, Netherlands), The Interdisciplinary Centre for Social and Language Documentation (Mirandese, Portugal), Nord University (South Saami, Norway), RTA (Latgalian, Latvia) and Tallinn University (technical solution and support, Estonia).
